TWO LIGHTS IN ONE WITH INTEGRAL BACK-UP FUNCTION

PROUDLY MADE IN USA

LumenX®
I B L
INTEGRATED BACK-UP LIGHT

Peterson has expanded our award-winning, **LumenX®** line with the two innovative lights that integrate a DOT-legal, single diode, LED white back-up light right into standard 6" oval (M880-7 & M881-7) and 4" round (M882-7 & M883-7) red stop, turn and tail lights.

Both form factors are available in flange and grommet mount versions. Wiring sockets on the rear of the light housing accept silicone-sealed AMP style plugs for the most durable, weatherproof seal available.

These designs not only make efficient use of available space on the rear of the vehicle and provide an attractive, eye-catching appearance, but this innovate approach also saves labor and material costs by eliminating the need to purchase and install a separate back-up light.

These distinctive lights demonstrate once again how Peterson is continuing to lead the industry with innovations that solve real problems.
See detailed specifications on reverse.

TWO Lights In ONE!

| Order No.		Description	Pack	Std Carton
880K-7	KIT	grommet mount kit	poly pack	6

7 diodes

880-7 / 881-7 *LumenX*® LED
## Oval Combo Stop, Turn, Tail & Back-Up Light

- Cyclops-style design integrates back-up light into stop/turn/tail light.
- Single bright white diodes meet legal back-up light req. used in pairs.
- Available w/integral AMP-compatible receptacles or hardwired leads.
- 880-7P hardwired with PL3 plug.
- 881-7 has flange welded to light, forming a single unit.
- 880K-7 kit includes light, grommet and AMP-style plug.
- 881K-7 includes flange version light and AMP-style plug.
- Available in 9-16 volt or 9-32 (-MV) operating ranges.
- Meets FMVSS 108 requirements in horizontal, vertical or any 360° position.

6.50" 165 mm — 2.25" 57 mm — 1.42" 36 mm — 4.00 100 mm — 3.63" 92 mm — 3.00" 76 mm — 7.88 200 mm — 1.42" 36 mm — 0.88" 22 mm

4" Round Combo Stop, Turn, Tail & Back-Up Light

- Cyclops-style design integrates back-up light into stop/turn/tail light.
- Single bright white diodes meet legal back-up light req. used in pairs.
- Accepts AMP-compatible connectors for all functions.
- 882-7P & 883-7P hardwired with PL3 plug.
- 883-7 has flange welded to light, forming a single unit.
- 882K-7 kit includes light, grommet and AMP-style plug.
- 883K-7 includes flange version light and AMP-style plug.
- Available in 9-16 volt or 9-32 (-MV) operating ranges.
- Does not require "Top" positioning to meet FMVSS 108 standard.
